## **Extermination Information**

Extermination is offered free of charge for all residents who request service and maintain a clean apartment/house. Keeping your apartment/house clean is **essential** in preventing the infestation of insects such as roaches, ants, etc. Charges may be assessed if it is determined that the infestation has been caused by a result of a resident's action (poor house-keeping, etc.) If you discover insects and would like to have them exterminated, everyone in your apartment/house must sign this request form before the work can be scheduled. Intrastate Pest Control will exterminate your apartment/house and you will not need to be present.

Some insects require subsequent visits from the exterminator in order for them to be eliminated. Please call if you need additional service next month or any month thereafter.

The exterminators recommend clearing items off the floor and from around the baseboards. Also, if you have insects in the kitchen or bathroom cabinets please remove all items from these cabinets.

### **Extermination Request**
